INTRODUCTION

Dear Business Partners,
Greetings of the day!

TIE Corporation Private Limited is a Government-Registered Fire Protection Consultant (For All Heights) based in Surat, established in 2016. The company was founded by Er. Amit Gorasiya (M.Tech. in Power Electronics), who brings strong technical expertise in engineering systems and project execution, along with Mrs. Nayana Chodavadiya, who plays a key role in business operations and administration.

With a clear vision to improve fire safety awareness and prevent avoidable tragedies, the company expanded its leadership in 2023 by appointing:

- Mr. Nikunj Makwana (B.C.A.) – Specializing in system coordination, technical documentation, and fire safety project management.
- Mr. Nitin Mistry (B.Com.) – Focused on compliance management, client coordination, and commercial operations.

Both Mr. Makwana and Mr. Mistry have been actively working in the fire protection field since 2018 as partners of M/s. Anant Enterprise, bringing valuable hands-on experience in fire safety systems and execution.

Together, our leadership team combines technical knowledge, practical field experience, and compliance expertise to deliver reliable and professional fire protection solutions.

We work closely with business owners, property managers, and facility heads who face challenges in managing their fire safety responsibilities. Our team provides complete fire safety management support, including the design, installation, commissioning, and maintenance of Fire Alarm Systems and Fire Hydrant Pump and Piping Systems. We also ensure proper system handover and practical training to responsible personnel so that safety measures are effectively implemented and maintained.

Our objective is simple: to help organizations stay compliant, protected, and confident in their fire safety systems while they focus on growing their business.

Waiting for your enquiry to provide fire engineering consultancy services to your facilities.

Thanking you and we assure our best & prompt services all times.

Yours Sincerely,

Form,
TIE Corporation Private Limited.

OUR VISION / MISSION & GOAL

Our Vision

To be a global benchmark in fire safety, trusted for innovation, reliability, and sustainable protection of 1 billion+ lives and property.

Our Mission

We deliver world-class fire safety solutions — products, systems, and training — driven by technology, integrity, and a customer-first approach.

Goal

To expand nationwide, pioneer smart fire safety innovations, and create safer communities for the next generation.

OUR VALUES

Client-Centric Approach

We take the time to understand each client's specific needs and project requirements, and we deliver solutions that are practical, reliable, and aligned with their expectations.

Commitment to Codes and Standards

We strictly adhere to local and national fire safety regulations, ensuring every design and execution meets required compliance standards.

Quality and Timely Execution

We believe customer satisfaction comes from consistent quality work delivered within committed timelines.

Supportive Work Environment

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Nunc vitae tellus sit amet libero lacinia pretium ac ut nunc. Nunc id erat mi. Cras sollicitudin augue sit amet dictum ultricies. Aliquam erat volutpat. Aenean finibus pretium metus et faucibus.

Responsibility to Society

We aim to create safer communities by promoting fire safety awareness and enhancing the overall safety of the environments we serve.

Our Areas of Activity

Fire and Utility Service Audits, including Fire NOC assistance
Fire Safety Education and Training Programs
Fire Protection Consultancy Services
Fire System Maintenance and Management

SERVICES OFFERED

Fire Alarm & Hydrant Systems

Complete design, installation, testing, and commissioning of Fire Alarm and Fire Hydrant Pump-Piping systems for reliable emergency response.

Annual Maintenance Contracts (AMC)

Regular inspection, preventive maintenance, and system performance checks to ensure your fire protection systems remain fully operational at all times.

Fire Safety Audits & NOC Support

Comprehensive fire, safety, and utility audits with guidance and documentation support for obtaining and renewing Fire NOC approvals.

Building Management & Automation

Integrated solutions including Building Management Systems (BMS), industrial automation, and centralized monitoring for improved operational efficiency.

WHY CHOOSE US

Complete Fire Protection Solutions Under One Roof

From consultancy to execution and maintenance, we handle everything.

Commitment to Continuous Improvement

We regularly upgrade our technical knowledge, tools, and processes to stay aligned with the latest fire safety standards, technologies, and regulatory changes, ensuring our clients always receive up-to-date and future-ready solutions.

Strong Compliance Support

We simplify statutory fire safety responsibilities, helping you stay compliant without stress.

First-Time Fix Approach

Our engineers focus on resolving issues during the first visit, saving you time and cost.

24/7 Emergency Response

Guaranteed 12-hour emergency response time, available 365 days a year.

Warranty Assurance

All supplied parts come with a one-year warranty.

Detailed Engineering Reports

Clear service reports supported with digital images for transparency.

Nationwide Service Network

Professional and consistent service through experienced local engineers.

Client-Focused Relationships

We prioritize long-term relationships built on trust, performance, and satisfaction.

Customized Solutions for Every Project

We understand that every facility is different. Our team designs fire protection systems tailored to your building structure, operational needs, and risk profile rather than offering standard, one-size-fits-all solutions.

Expert and Ethical Technical Team

From consultancy to execution and maintenance, we handle everything.

INDUSTRY EXPERTISE

TIE Corporation Private Limited brings strong technical expertise and practical experience in fire protection engineering. We specialize in system design, execution, compliance management, and maintenance support, ensuring every solution meets regulatory standards and performs reliably.

Our team focuses on delivering safe, efficient, and technically sound fire protection systems with a commitment to quality and long-term performance.
